

# Holt County Sentinel

OREGON, MO., APRIL 5, 1873.

For Judge 2nd Judicial Circuit,  
**HENRY S. KELLEY,**  
of Andrew County.

For Circuit Attorney,  
**T. C. DUNGAN,**  
of Holt County.

## OUR CITY ELECTION.

Our Municipal Election, although considerable interest was manifested in it, passed off very quietly, without in the least disturbing the equanimity of our citizens, as the light vote will indicate. At an early part of the day the friends of Mr. Hobbittzell made Mr. Stuckey's known temperance views an issue in the contest, and enlisted the services and influence of the two factions against him; this issue was false in its inception, and had nothing at all to do with the merits of the case. The candidates for Mayor ran party on their personal merits and party on their political antecedents, and the following is the result:

FOR MAYOR,  
Samuel Stuckey (Rep.).....69  
John Hobbittzell (Dem.).....67

FOR MARSHAL,  
Joseph Martin, Jr.....140

FOR ASSESSOR,  
John J. Ingraham.....141

The following are the Councilmen chosen:

EAST WARD,  
T. I. Kreeck, J. H. Nies, Samuel Shultz and S. P. Jewell. Four.

WEST WARD,  
Moses Bennett, S. H. Wiltmer, Joel Heister, David Foster and Fred Secman. Five.

VOTE ON HOG LAW,  
For Hog Law: 59; Against Hog Law: 48.

## NOT DEAD, BUT SLEEP.

### The Democratic Party of Holt to be Reorganized.

The reorganization of the Democratic party in Holt county is being vigorously pushed by its friends. Last week a printed card, signed by Messrs. E. Van Buskirk, Levi Cook, James Scott and R. H. Russell was extensively circulated in the county, calling up all Conservatives, Democrats and "Liberal Republicans" to meet at the Court House, Oregon, on the 30th, for the purpose of selecting 5 delegates to a Judicial Convention of the party.

On the day appointed a number of the faithful assembled, and on motion Doctor J. L. Johnston of Craig, took the Chair, and Mr. J. R. Welch of Whig Valley, acted as Secretary. J. W. Stokes, of Craig, called upon the Chairman to state the object of meeting. Mr. Harry Buell, editor of the Arago Press and Craig Democrat, moved to proceed to elect five delegates. Mr. Hiram Patterson of Forest City, moved that Mr. Levi Cook be one of the delegates. Carried.

Mr. J. T. Hobbittzell moved that Judge Russell be a delegate. Mr. Russell declined the honor but nominated Mr. G. L. Gomel. Carried.

Mr. Stokes nominated Mr. H. Patterson. Carried. Mr. Buell nominates Mr. J. L. Johnston and James Scott.

A resolutions instructing delegates to go for Tom Collins was adopted. Mr. H. Patterson argued that it was best not to instruct for any one.

Dr. T. J. Gibson rose and said that he had considerable experience in political matters. He welcomed the present as an auspicious occasion for the reorganization of the Democratic party in Holt county. He had always been a Democrat, and never voted any but a Democratic ticket. And he expected never to vote any other but a Democratic ticket. He said it was his conviction that by earnest labor in behalf of the Democratic party, Holt county could and would be redeemed from Radical rule.

Mr. Harry A. Buell, of the Arago (Neb.) Press and Craig Democrat, endorsed the speech of Dr. Gibson, and said it breathed the right spirit, and he trusted the Democracy of Holt would before them, and insure a Democratic triumph at the polls.

## VERY INDICATIVE.

Taking the speeches made at the Conservative County Convention on Saturday last as a criterion, our Democratic friends certainly "measurably" in the impending Judicial Campaign.

They are devoting themselves with unusual assiduity to getting all their men placed on the registry lists, and they calculate largely on the apathy of Republicans, knowing how difficult it is to arouse them on special elections. In Andrew, Nodaway and Atchison they calculate on an easy victory, as by the so-called "Liberal" movement they have considerably augmented their ranks. But in "old Holt" they will fight for every square-inch of territory with a zeal worthy of better cause.

Under these circumstances it behooves all true Republicans and Union men to be at their posts on the 16th of April next. We are very loth to consider the Judiciary from a political standpoint, but when our Democratic neighbors make it a political issue, and when we remember that the Judiciary for the next five or ten years will be called on to hear and decide cases which have grown out of the late rebellion, we are unwilling to elevate men to the Circuit Judgeship that were in the least tainted with Secessionism or who were, in the perilous days of our country's late struggle, of doubtful Unionism.

## FOR CIRCUIT ATTORNEY, T. C. DUNGAN, ESQ.

Though young in years there is none more deserving, none more upright and competent for the position he aspires, than T. C. Dungan, Esq.

## STRANGE ACTION OF THE OREGON BOARD OF EDUCATION.

Mr. Editor: Through the columns of your paper I wish to act as special reporter for the Hon. School Board, which met at the office of T. C. Dungan, Oregon, on Saturday March 30th. This meeting of the Board had been looked forward to with great interest on the part of all our citizens, as there had been a petition circulated praying the Board to build an addition to our present Public School Building, costing about \$8,000, etc. At this meeting of the Board this question was to be decided for or against the prayers of the petitioners.

With this purpose, I will endeavor to give a faithful report of the positions taken by each member, and their arguments for or against said petition. After some preliminary business had been gone through with, such as granting school orders, etc., the forward petition was unrolled by Mr. Kaucher, the Secretary of the Board, containing one hundred and seventy-seven names of voters and tax-payers of the district, (over four-fifths of all the voters in said district), backed up by a petition from the ladies, petitioning not as voters and tax-payers, but as wives, mothers and sisters, feeling a deep interest in the cause of education, asking the Board to favorably consider this great educational movement.

Mr. Kaucher moved that the Board take the necessary steps to comply with the request of the petitioners.

Seconded by Mr. Cummins. No sooner was this question fairly before the Board, when J. Martin gave vent to his feelings about the following language: He was entirely opposed to this petition; the principle was wrong; the idea of taxing a man unless he was willing, was a bad precedent, and if this question was agitated would bring on another war. If every man but one in the district would petition him to build a school house, he would not be in favor of levying a tax for that purpose without the consent of that single man. These were the principles he lived for and if necessary was ready to die for.

Judge Lehmer, with all the dignity of a presiding County Judge, said he was opposed to anything being taught in our public schools except the primary branches; and that our school law was all wrong in requiring the Board to provide schools of a higher grade. Learn a child to read, write and cipher, and if they wanted anything better, let them go somewhere else and pay for it. He was opposed to listening to this petition.

Next, Judge Russell delivered his official opinion, thusly: He did not think we needed an additional school building. Didn't think we were crowded, and thought we did not have as many children in the district now as last year; and the people were oppressed with heavy taxes (which is one and one-eighth per cent), and the present building would do us two or three years yet. So he was opposed to the petition.

Uncle Henry Watson said: He was elected on the anti-school house ticket. Over two years ago, but if the people would build a school house he would resign, and let them elect some other man, (a sensible conclusion). But Judge Lehmer said, "No; we can afford to pay you something not to resign," which remark I presume reflected his ideas of the justice to his constituents.

Kaucher and Cummins strongly favored the petition, and gave their reasons for so doing substantially, as follows: The proposed school building would enable us to establish the higher grades of school contemplated by law, thereby obviate the necessity of sending our children, away from home influences, to be educated elsewhere at great expense. That such a school would be an inducement for good citizens to settle in our town—such citizens would make good neighbors, and help build up good society. That it would call pupils from outside the district to come here to be educated, and prepare themselves for a life-work of teaching. That it would be the nucleus of elevating the standard of teaching throughout the county. That it was a much needed improvement, as our present building was over-crowded. That it was a reasonable request of the petitioners, as our taxes would be light the coming year, and the additional tax would not be burdensome. That it was the duty of the Board as public servants to grant the request of an overwhelming majority of their constituents, etc.

A vote was taken: two for and four against. Thus ends the hopes of the friends of education for the present. But, thank God, the world moves, and the time may yet come, when the opposition to this movement may see the error of their ways, which is the prayer of SPECTATOR.

## IMPORTANCE OF THE SPECIAL ELECTION.

The election on the 16th of April is one of great importance to the people, and in which every citizen is directly interested as a tax-payer, if not as a litigant. Indeed, the office of Judge of the Circuit Court is next in importance to that of Judge of the Supreme Court, and is not second to any other position within the gift of the people. If you want business dispatched with as little cost as possible to the people, you must vote for and elect competent men for your Judicial officers, Vote for Kelley and Dungan.

Tandy, the colored orator who was employed to stump the State for the Liberals, replies to the charge of the St. Louis Times, in a letter to the State Atlas, "that it is bad enough for a white man to be denounced as a Democrat, but such an insult is unbearable to a colored man," and that "the colored man will be in strange company when he joins the Democratic party."

—The bill for re-appointing Missouri into Congressional districts failed to become a law. Missouri elects four Congressmen at large this fall.

## REVENUE LAW.

The Missouri Senate on Friday week before last passed the House substitute to Senate revenue bill, after having made sundry amendments, the most important of which was that which strikes out of the bill the section which allows tax payers to offset their liabilities against their creditors. The general features and principles of the bill as it came from the House remain unchanged, and the House has already concurred in the Senate's amendments, and the bill has become a law. It is substantially a restoration of the law of 1863 and 1864. One of the most radical changes from the present law is that which relates to the sale of delinquent lands and tax titles. Under this law a lien on lands and no person can redeem in court any tax title until all delinquent taxes, costs and penalties are paid or tendered. This provision applies to lands delinquent since 1869, and it is thought it will result in largely augmenting their revenue. The revenue for State purposes is reduced one-fourth to one-fifth of one per cent, and the office of sheriff and collector is divided, but one man may fill both offices. The collector is to be paid a salary in proportion to the assessed value of the respective counties, together with fees for distraining and selling property to pay taxes, the same as are allowed to the sheriff on execution.

## FOR JUDGE, HON. H. S. KELLEY OF ANDREW COUNTY.

The Judicial Convention which met in this city on the 28th of March last, placed this gentleman in nomination for the position of Circuit Judge of the 29th District. Judge Kelley is a highly-minded, honorable man, generally liked, and popular in his profession. He possesses an acute, logical mind, and sound, discriminating, practical good sense, with habits of untiring industry and perseverance, a keen love and respect for the profession of his choice, and a strong desire to excel. He has at the bar of Northwest Missouri by a sound, practical, thorough legal scholar and able lawyer. No better man for the position can be found among the lawyers of whatever politics in this Circuit, and none who would more honor in our public schools except the primary branches; and that our school law was all wrong in requiring the Board to provide schools of a higher grade. Learn a child to read, write and cipher, and if they wanted anything better, let them go somewhere else and pay for it. He was opposed to listening to this petition.

## WANTS TO BE COUNTED ON.

After all, it seems that every person in favor of the Cincinnati movement is in favor of being counted on, in certain contingencies. If an anti-radical plank is adopted by the convention, Horace Greeley wants to be counted on. If a tariff plank is adopted the New York Evening Post wants to be counted on. If a Democrat is expected, Mr. Sumner wants to be counted on, and if a Republican is nominated, the World wants to be counted on. If Mr. Trumbull is not nominated, he wants to be counted on. If Mr. Chase is not nominated, he wants to be counted on. If Judge Davis is not nominated, he wants to be counted on. If anybody to beat Grant is not nominated, Mr. Schurz wants to be counted on. If the outs are not put in they want to be counted on; and when the day of election comes, the ins will wish they had been counted on.

## GENS FROM THE WHITE.

Don Carlos Buell, whom they used to have for a foot-ball in Richardson County, Nebraska, has started a "Liberal Republican" paper over at Craig, Holt county. The poor folks over there were afflicted with scarlet fever two winters ago, with measles last winter, and now it is BUEL!

The Republicans will hold their National Convention at Philadelphia, the City of Brotherly Love, for their motto is, "Let us have peace."

The conglomerate sore-heads will hold their National Convention at Cincinnati, the Porkopolis of the West, because their motto is "Root, hog, or die."

The four leading men in New York, who seem to be the most keenly aware to the necessity of saving the country by beating Grant, are,

GREELLY, TILMAN, TILDEN, SEWARD.

What do these initials spell?

Another editor from the Missouri branch, is going to try his hand at publishing a Democratic paper for the generation of Kansas. His proposed location is Chetopa, and his name is Harkrider. Thus far, the Missouri branch have not met with brilliant success in the newspaper business in Kansas. As "Liberal Republicans," the prospect seems but very little better.

SCURVEY BRESLINING HIS FATHERSLAND.—Carl Schurz, after conspiring with the French Minister to get this Government into difficulty, and incessantly howling forth his slanders against Grant, was brought up, the other day, to testify before the Senate Committee that he really did know about the sale of arms. He knew nothing at all, but on the contrary, the official papers of the German Government had published a statement acquitting our Government of all blame in the matter. So, what does Mr. Schurz do? In order to parry off the falsehoods fastened upon himself, he accused his own country of cowardice and deception—intimated a person at the same time automatically lighting a lamp connected with the device. No burglar can enter a building where it is given and the lamp to be lighted. Its construction is novel, simple and cheap, thus placing its use within the reach of all.

## REPUBLICAN VICTORY IN ST. JOSEPH.

The Democracy and Liberal Republicans made a desperate effort to carry the election in St. Joseph. They boasted that as 700 names had been registered of persons that had not voted since before the war, and had only been lately enfranchised, that they would carry the city by at least 400 majority. But instead of a Democratic success the count demonstrated that the Republican candidates, from Mayor to Marshall (except the Recorder), were elected by majorities ranging from 164 to 390.

## I. O. O. F. Proclamation of Thanksgiving.

WHEREAS, The Right Worthy Grand Lodge of the United States of the Independent Order of Odd Fellows, "the source of all true and legitimate Odd Fellowship in the United States of America," did, by resolution unanimously adopted, establish the 30th of April, 1869, as the natal day of our Order.

AND, WHEREAS, In conformity to that historic record, it did ordain that the said day, on each succeeding year, should be observed as its anniversary in the appropriate manner; and NOW, therefore, I, Fred. D. Stuart, M. W. Grand Sir, do hereby fraternally recommend that the 26th day of April, 1873, be dedicated by the proper authorities of our Order, in the several jurisdictions, to such form of observance as they respectively deem to be appropriate. We have not only abundant cause for hearty gratitude to our mighty God for his manifold mercies to us as individual members of society, but likewise have an especial reason to be thankful for the large and generous prosperity which he has pleased Him to vouchsafe to our united labors. Done at the City of Baltimore, State of Maryland, the first day of March, A. D. 1873.

FRED. D. STUART, Grand Sir.

JAMES L. RIDGELY, C. S.

## JUSTICES' FEES.

The Legislature has passed an act concerning Justices' fees, of which the following is the full text. A certified copy has been received in this city.

An Act concerning fees, and the collection thereof, of Justices of the Peace in cities of thirty thousand or more inhabitants.

Be it enacted by the General Assembly of the State of Missouri as follows: SECTION 1. Besides the fees otherwise allowed them by law, Justices of the Peace in cities having a population of thirty thousand or more inhabitants, shall receive the following additional fees in civil cases, to-wit: For receiving and filing cause of action, one dollar (\$1.00). For every certificate except to affidavits, fifty cents (.50). For filing a set-off, fifty cents (.50). For issuing every writ in a civil case, one dollar (\$1.00). For every writ of habeas corpus, fifty cents (.50). For every writ of mandamus, fifty cents (.50). For every writ of certiorari, fifty cents (.50). For every writ of prohibition, fifty cents (.50). For every writ of quo warrantum, fifty cents (.50). For every writ of scire facias, fifty cents (.50). For every writ of habeas corpus, fifty cents (.50). For every writ of mandamus, fifty cents (.50). For every writ of certiorari, fifty cents (.50). For every writ of prohibition, fifty cents (.50). For every writ of quo warrantum, fifty cents (.50).

## ITEMS FROM MOUND CITY AND NEIGHBORHOOD.

Ground has been broken and the preliminary steps are being taken to erect a spacious Presbyterian Church in Mound City. It is proposed to seat about 500 people, and when completed will be a real ornament to that rising young city.

The prolonged absence of D. P. Ballard from home is creating not a little anxiety among his many creditors. The Masonic Lodge stands itself minus \$247 on B's account. Nearly every business firm in the place is more or less a sufferer.

Mr. L. Fountain who resides some miles northeast of this place, has signified his intention of herding cattle the coming season. He will herd yearlings for \$1.50 the season. All cattle over the entire season, and will commence as soon as the grass is sufficient to sustain cattle.

Mr. Peters, of Minnesota Valley says his new bridge is completed, and L. Fountain was the first man who crossed it. The structure is pronounced first-rate.

The country is improving rapidly, and is furnishing numerous evidences of life and thrift.

## "How to Go East."

By the Kansas City, St. Joe & Burlington Route.

The Line consists of the Kansas City, St. Joseph and Council Bluffs R. R., with two daily trains from Kansas City, through Atchison, Leavenworth and St. Joseph to the Missouri State Line, connecting with the Burlington Route, which leads direct to Chicago, Cincinnati, Indianapolis, Logansport and Columbus—through cars are being run to all these points.

This Line is well built, thoroughly equipped with every modern improvement, including Pullman's Standard passenger so completely dependent on a speedy, safe and comfortable journey. The Burlington Route has admirably answered the query, "How to Go East," by the publication of an interesting and truthful document, containing a valuable and correct Map, which can be obtained free of charge by addressing General Passenger Agent B. & M. R. Burlington, Iowa.

## QUESTION.

EDITOR SENTINEL: Dear Sir: We wish you to solve the following: James Baldwin and Ann Lambert (cousins) had a daughter, their father, their grandfathers, and their great grandfathers, all as far back as we know married cousins. Now, what connection will James Baldwin's and Ann Lambert's children be in case God should bless them with any? Yours,

ENQUIRER.

A WONDERFUL and very useful invention, called the Lightning Clock Alarm and Thief Detector, has just been patented by Thomas N. Howell, of Circleville, Ohio. The alarm will arouse a person at any desired hour in the night, at the same time automatically lighting a lamp connected with the device. No burglar can enter a building where it is given and the lamp to be lighted. Its construction is novel, simple and cheap, thus placing its use within the reach of all.

Connecticut stands true to the Union, and has gone Republican by an increased majority.

—Kansas City has gone Republican.

## MORE ABOUT THE LOST DEED.

### A Reply to Mr. Allen.

Mr. Editor: I wish to make a few remarks with reference to Mr. Allen's intended refutation against my late advertisement in your paper. In the first place I think his attempt to "disabuse the mind of any one," is certainly very weak, which I shall attempt to show.

The first plausible mistake Mr. A. puts to my charge, is not mine, but his own; as Mr. Fulmer and myself understood him to say, that said deeds were made on the 13th day of June, 1871, as he looked at the records and not we. Again it was three months and not seven, afterward that I called at the office the first time. That I did not know who I gave them to is false in accusation and in statement. If he says: the next time I came I was so positive that I had left them in the office that I did not look at home. This is true in statement and in fact; nor has my mind in that direction been changed in the least. As to my holding Henry Kunkel's deed "over two years before recording" is also true, but does not signify that same subject in similar acts. If Mr. A. thinks that he has never made similar mistakes, I will cite him to one, at least, as I now have another man's deed in my possession which he gave to me by mistake. Again Mr. A. ought to know that said deeds might have been destroyed to annoy him regardless of my disadvantages.

But I must once more advert to the Clerk's Memoranda. Though it may not be lawfully connected with the office, why did the Clerk resort to it for proof that my deeds were not there? And when I came the next time I asked the privilege to examine it myself, when I got one or two leaves bearing the date of May and June, 1871, had mysteriously disappeared! As Mr. A. prefers to take all blame upon himself, will he tell me who, or how they were "torn out," and why? The memoranda will show whether the leaves were cut or "torn." As for the charge of "ignorance" I shall not refute, as I make no pretensions to high mental qualifications, which no doubt arises from the fact that I have never exhausted as much ink nor eaten as much paper as Mr. A.; yet I do confess that I possess the degree of honesty and ability, which cannot remain inactive at the expense of property, truth and justice.

JOSEPH ANSELMENT.
